June is
Men's
Health
Month!

The Goal of Men's Health Month

The purpose of Men's Health Month is to heighten the awareness of preventable health problems and encourage early detection and treatment of disease among men and boys.

Alarming statistics show that men's health is at great risk.

On average, men die almost 8 years younger than women and suffer higher mortality rates for the top causes of death. The lives of hundreds of thousands of men will continue to be threatened unless immediate action is taken to combat this growing crisis.

Research shows that:

- men do not see physicians for a physical exam nearly as often as women
- men are dying of the top causes of death at higher rates than women
- men are more likely to be uninsured than women
- approximately 30,000 men in the US die each year from prostate cancer

Men's Health Network

Men's Health Network (MHN) is a non-profit educational organization made up of physicians, researchers, public health workers, individuals and other health professionals.

MHN was founded in 1992 by a group of health professionals and key thought leaders interested in improving the health and well-being of men, boys and families.

Join us @ Public Services (downstairs) for a great Men's Health Presentation with Brian Devlin, P. A. @ Swisher Internal Medicine. Brian will offer us the latest information on Men's health. The new prostate guidelines, exercise, testosterone info. and other men's health information and tips!

Brian was an Army medic for 5 years stationed @ Fort Bragg. He completed P. A. school @ Wingate University and is a native of Charlotte, now residing in Hickory with his wife and 7 month old baby girl.
