

CITY OF HICKORY
ADMINISTRATIVE POLICY
Security of Sensitive and Confidential Information and Breach
Response Plan

SECTION 1. Purpose

In accordance with the Federal Trade Commission's Fair and Accurate Credit Transactions Act of 2003, the Identity Protection Act of 2005, North Carolina General Statutes (N.C.G.S) 75-60 of the Identity Theft Protection Act, N.C.G.S 14-113.20 Identity Theft, and N.C.G.S 132-1.10 of the Public Records Act (together, the "Act"), the City is required to safeguard certain information of customers, vendors, employees, and other individuals who provide information to the City that is covered by the Act. The purpose of this policy is to communicate to employees and third parties their responsibility for protecting sensitive and confidential information pursuant to the Act and a response plan in the event that there is a breach of information subject to the Act.

SECTION 2. Definitions

Confidential information – Under North Carolina Public Records Law (G.S. 132-1), the City also has an obligation to secure and limit access to certain information involving customers and employees. The following items represent categories of records that are exempt from public access. (Note: this list is not exhaustive.):

1. Confidential legal materials
2. State and local tax information that contain information about a taxpayer's income or receipts except as provided in G.S. 153A-148.1 and G.S. 160A-208.1
3. Public enterprise billing information (utility customer data)
4. Personnel records except those items identified by statute as being public records
5. Records of criminal investigations conducted by public law enforcement agencies
6. Names, addresses, telephone numbers, or email addresses that are contained in the 911 database, emergency notification system, or reverse 911 system.
7. Emergency response plans
8. Economic development incentives

Employee Use - Access and use of sensitive or confidential information by an employee or agent of the City. Authorized use occurs when the employee or agent uses the information for lawful and legitimate City business. An unauthorized disclosure of information occurs when the employee or agent accidentally or deliberately exposes or releases sensitive or confidential information to an unauthorized party.

Identity Theft – Unauthorized use of an individual’s personally identifying information to commit fraud or other criminal acts.

Security Breach – A breach is considered to have taken place if any sensitive or confidential information is suspected to have been stolen, viewed, copied, or otherwise compromised by an unauthorized individual or if it is suspected that information has been lost and could be accessed by unauthorized individual(s). A breach of information can occur physically or virtually via technology.

a. Physical Breach - Unauthorized access to sensitive and confidential information via physical means. Activities indicating a possible physical breach include, but are not limited to, the following acts:

1. Evidence of lock tampering on file cabinets or office doors
2. Evidence of unauthorized entry in an area where sensitive and confidential information is stored
3. Missing files or documents that contain sensitive information

b. Technology Breach - Unauthorized access to sensitive and confidential information via technological means. Activities indicating a possible physical breach include, but are not limited to, the following acts:

Unknown or unauthorized name in the computer logon window
Disconnected computer cables or power cables
Missing computer equipment (desktop, laptop)
Evidence that electronic files have been accessed by unknown or unauthorized individuals or are missing
Devices or media attached to the computer that are not known or authorized
Unusual programs running, icons, or windows that appear that are not known and are not part of the normal work process
Any other suspicious activity which indicates an attempt to use City technology without approval

Sensitive Information – Information that is identifying information according to the Act and through contractual obligations related to merchant services (credit card acceptance). The following are specifically identified as sensitive information:

1. Social security and employer taxpayer identification numbers
2. National and international identification
3. Drivers license, State identification card, or passport numbers
4. Credit card and debit card numbers
5. Savings and checking account numbers
6. Personal Identification (PIN) Code
7. Passwords
8. Electronic identification numbers, electronic mail names or addresses, internet account numbers, or internet identification names
9. Customer credit information (credit history, pay arrangements, and financial transactions)
10. Parent's legal surname prior to marriage
11. Any other numbers or information that can be used to access a person's financial resources.
12. Digital signatures
13. Biometric data
14. Fingerprints
15. A persons first name or first initial and last name in combination with identifying information

SECTION 3. Responsibilities of Departments

3.1 Each department will develop and maintain a standard procedure to provide staff with specific guidance on the protection of sensitive and confidential information applicable to the department. Departmental procedures will supplement but not supersede this policy or applicable laws.

3.2 Department heads are responsible for determining which employees are authorized to access and handle sensitive and confidential information and the department head must ensure that the authorized employees are trained to handle such information in accordance with this policy.

Employees who have access to sensitive and confidential information are required to create, handle, maintain, and dispose of such information with prudent care in order to ensure proper security. Access to sensitive and confidential information will be limited and

only provided in order for authorized employees and contractual third parties to perform essential tasks for City business.

- 3.3 All employees who manage and work with sensitive and confidential information are required to read and sign the Sensitive Information User Agreement which will be maintained in the employee's personnel file.
- 3.5 Each department will ensure that service providers who are in contact with sensitive or confidential information are aware of security requirements, as well as the need for confidentiality, through proper contractual agreements and arrangements.
- 3.6 All third party contractors who may have access to sensitive and confidential information are required to read and sign the Sensitive Information Service Agreement which will be maintained with the contract.

SECTION 4. General Procedures for Managing, Maintaining, and Storing Sensitive and Confidential Information

- 4.1 The following general procedures should be followed while creating, handling, maintaining, storing, and disposing of sensitive information.
 - 1. Enter information directly to a final destination (i.e. computer system) and refrain from documenting the information in other areas.
 - 2. If sensitive information is written on paper for reference, shred immediately upon recording the information in the final destination.
 - 3. Electronic payment data should be handled by authorized personnel and only the last 4 digits of the customer's credit or debit account number should be visible on reports.
 - 4. Sensitive information should not be included on e-mails.
 - 5. Sensitive information should not be included on printed reports except as needed for the performance of essential tasks.
 - 6. Maintain documents that contain sensitive information in a secured room and limit access to the area.
 - 7. If possible, utilize encryption to secure information in the database or storage system.
 - 8. Do not leave a computer unattended if sensitive information could be accessed by unauthorized individuals. While away from the computer, log off or lock the workstation.

9. Do not store files with sensitive information on laptops or on flash drives unless the information and the device can be secured and not accessible to unauthorized individuals.
10. Take reasonable measures when destroying sensitive data that will prohibit the information from being read or reconstructed. Documents with sensitive data should be shredded by the individual who has authorized access to the data or by another employee while in the presence of the authorized employee. The City may enter into a written contract with a third party in the business of record destruction to destroy sensitive information in a manner consistent with this policy.

4.2 In order to protect sensitive and confidential information, the City will only release sensitive information to the account holder or individual(s) who own the information upon confirmation of personal identifying information or a valid picture ID. The confirmed account holder or individual may authorize the release of sensitive information to a third party. Confidential information will only be released in accordance with state statute. The only exception will be the release of specified information pursuant to a court order, warrant, subpoena or other requirement by law.

SECTION 5. Identify Theft Risk

- 5.1 The City has a responsibility to define high risk areas for identity theft and identify potential threats for identity theft known under the Act as red flags. The red flags are indicators that sensitive information is being fraudulently used. This policy in combination with department specific guidelines should help to detect a potential for identify theft and unauthorized use of information.
- 5.2 The following are some red flags that have been identified as indicators that sensitive information is being used fraudulently. Red flags are most commonly associated with activity on customer accounts (utilities, taxes, activity registrations, vendors). Other red flags may exist that are unique to a department and should be included in departmental guidelines.
 1. The customer or individual provides notice that they are a victim of identify theft
 2. A consumer reporting agency or service provider has provided an alert, notification, or other warning

3. Unusual number of recent and significant inquiries about an account
4. Unusual or significant change in recently established credit or financial relationships
5. Conflicting names on identification and other documentation
6. Documents provided appear to have been altered or forged
7. Picture identification is not consistent with the appearance of the individual presenting the identification or the physical description on the identification does not match
8. Shortly after establishing an account, there is a request to change a mailing address or to add authorized users to the account
9. Personal identifying information provided is not consistent with other external information sources
 - a. Social security number does not match or is listed on the Social Security Administration's death master file
 - b. Address does not match or is fictitious, a mail drop, or prison
 - c. The phone number is invalid or associated with a pager or answering service
 - d. Authenticating information (i.e. PIN, password) provided is incorrect
 - e. Name on credit card or check does not match name on account or names associated with the account

5.3 Upon identification of a red flag indicating a potential risk of identify theft; staff should notify their immediate supervisor in person or by telephone to determine the validity of the red flag. Once an identify theft risk is confirmed, staff should respond in accordance with the breach response plan (Section 6).

SECTION 6. Sensitive and Confidential Information Breach Response Plan

6.1 Employee's Responsibility

Any City employee who becomes aware of a suspected or actual security breach of sensitive or confidential information must immediately notify their immediate supervisor. The immediate

supervisor will notify the department head or his/her designee who is responsible for further investigation and notification.

6.2 Department Head's Responsibility

Upon receiving notification from the employee or the employee's immediate supervisor, the department head or his/her designee immediately will notify the City Manager or his/her designee of the suspected or actual breach. If the breach involves electronic equipment, the department head or his/her designee also should contact the Information Technology Director by telephone or in person.

6.3 City Manager's Responsibilities

Upon receiving notification of the suspected or actual security breach from the department head or his/her designee, the City Manager will designate a security breach response team to investigate and handle the breach until such time that the threat has ended and affected individuals and agencies are notified. The security response team will consist of representatives from the City Manager's Office, the department where the breach occurred, the Hickory Police Department, and Information Technology (if applicable)

6.4. Security Breach Response Team's Responsibilities

The security response team will be responsible for taking appropriate actions to cure the breach. Such actions will include the following:

a. Notification of Affected Individuals

Notification of the affected individuals should occur without unreasonable delay. Notification will involve providing information to the individuals about the incident, including the type of sensitive information that was subject to the unauthorized access, the actions that the City will take to protect the information from further access, and a telephone number that the person may call for further information and

assistance. The team will also provide affected individuals with other basic information on steps they can take to protect themselves including vigilant monitoring of account statements, alerting credit agencies to potential fraud and identity theft and obtaining free credit reports.

Notice to affected individuals may be provided by one or more of the following methods:

1. Written notice
2. Electronic notice for those individuals for whom the City has a valid email address and who have agreed to receive communications electronically
3. Telephonic notice provided the contact is made directly with the affected persons and appropriately documented by the City.

A substitute notice may be given if the cost of providing the notice exceeds \$250,000, the number of affected persons is greater than 500,000, or the City does not have the necessary contact information to notify the individual in any of the aforementioned manners. A substitute notice will include posting a notice on the City's website and notifying major statewide media.

b. Notification of North Carolina Attorney General's Office

If a security breach involves more than 1,000 persons, the City will provide written notice of the timing, distribution, and content of the notice to the Consumer Protection Division of the North Carolina Attorney General's Office, as well as to all consumer reporting agencies that compile and maintain files on consumers on a nationwide basis, as defined in 15 U.S. C. 1681a (p).

c. Notification Exception

Notice may be delayed if law enforcement informs the City that disclosure of the breach would impede a criminal investigation or jeopardize national security. Such request by law enforcement must be documented in writing.

6.5 Information Technology (IT) Department's Responsibilities

The Information Technology Department ("IT") is responsible for the following response upon being notified of a technology security breach by the department head or his/her designee.

- a. IT will notify computer users that a technology breach has occurred and the breach response plan is being implemented
- b. IT will secure the computer infrastructure as deemed appropriate which may include but is not limited to disconnecting network connections to outside locations, disconnecting servers or any other device on the network until the breach is isolated.
- c. IT will preserve evidence that may be needed by law enforcement for investigative purposes

6.6 Reporting to City Council

At least annually, the City Manager or his/her designee will review all incidents of potential or actual security breaches and report findings and recommendations to the City Council.

SENSITIVE INFORMATION USER AGREEMENT

I have read the Security of Sensitive and Confidential Information and Breach Response Plan policy for the City of Hickory, North Carolina and understand how to properly manage, maintain, store, and dispose of sensitive and confidential information at the City of Hickory, North Carolina. I will abide by the policy and will handle sensitive and confidential information with prudent care in order to ensure proper security of the information.

In the event of a suspected or actual breach of sensitive and confidential information, I will notify my immediate supervisor without delay and follow the breach response plan.

I understand that negligent handling or inappropriate use of the City's sensitive and confidential information will be subject to disciplinary action up to and including dismissal and may be criminally and civilly prosecuted as allowed by law.

I have read, understand, and agree to the conditions above.

Date Signed: _____

SENSITIVE INFORMATION SERVICE AGREEMENT

I, _____, an authorized representative of _____ ("Company"), hereby acknowledge that I have read and will adhere to the requirements listed below as they apply to the services procured by the City of Hickory, North Carolina ("City").

1. The appointed representative(s) of the Company have read the City of Hickory, North Carolina administrative policy III.14 Security of Sensitive and Confidential Information and Breach Response Plan.
2. The Company accepts responsibility for the security of sensitive and confidential information in their possession.
3. Data can only be used to complete the service as described by the City for which the Company was engaged to perform.
4. If the Company is providing service that is related to a key function of the City, the Company must assure business continuity in the event of a major disruption, disaster, or failure as provided for by contract.
5. If a security intrusion has been detected, the Company will notify the City immediately. If the Company has placed sensitive data on their system and the system has been breached, the Company will allow their system to be thoroughly reviewed at the Company's expense. This review may be conducted by the City or an appointed representative. In the event the intrusion is related to credit card numbers, the review may be conducted by a Payment Card Industry representative and will validate compliance with Payment Card Industry Security Standards for protecting cardholder data.

Date:

not exceed 3.79%, and the financing term shall not exceed ten (10) years from closing

2. All financing contracts and all related documents for the closing of the financing (the "Financing Documents") shall be consistent with the foregoing terms. All officers and employees of the City are hereby authorized and directed to execute and deliver any Financing Documents, and to take all such further action as they may consider necessary or desirable, to carry out the financing of the Project as contemplated by the proposal and this resolution. The Financing Documents shall include a Financing Agreement and Deed of Trust and a Project Fund Agreement as BB&T may request.
3. The Finance Officer is hereby authorized and directed to hold executed copies of the Financing Documents until the conditions for the delivery of the Financing Documents have been completed to such officer's satisfaction. The Finance Officer is authorized to approve changes to any Financing Documents previously signed by City officers or employees, provided that such changes shall not substantially alter the intent of such documents or certificates from the intent expressed in the forms executed by such officers. The Financing Documents shall be in such final forms as the Finance Officer shall approve, with the Finance Officer's release of any Financing Document for delivery constituting conclusive evidence of such officer's final approval of the Document's final form.
4. The City shall not take or omit to take any action the taking or omission of which shall cause its interest payments on this financing to be includable in the gross income for federal income tax purposes of the registered owners of the interest payment obligations. The City hereby designates its obligations to make principal and interest payments under the Financing Documents as "qualified tax-exempt obligations" for the purpose of Internal Revenue Code Section 265(b)(3).
5. All prior actions of City officers in furtherance of the purposes of this resolution are hereby ratified, approved and confirmed. All other resolutions (or parts thereof) in conflict with this resolution are hereby repealed, to the extent of the conflict. This resolution shall take effect immediately.

K. Approved Identity Theft Prevention Policy

The Federal Trade Commission (FTC) requires all municipalities to adopt an Identity Theft Policy who have utility accounts by November 1, 2008. This policy is to protect consumers' identities and deter theft of their identifying information. The policy and procedures must identify, detect and respond to possible signs of identity theft known as "Red Flags." After November 1, 2008, the FTC may request copies of the policies from randomly selected utilities and if found non-compliant, may be subject to civil penalties, damages and attorneys' fees. Implementation of the policy and procedures will require training of department heads and other key employees. Staff recommends approval.
