BACKGROUND

In 2014, the City of Hickory's citizens passed a \$40M bond referendum, covering four major initiatives – Trivium Corporate Center, City Walk, Riverwalk, and Streetscapes & Gateways.

Throughout the process, leaders have worked with a 42-member Bond Implementation Commission along with other stakeholders to guide the projects and make recommendations to City Council.

The City has leveraged those funds to secure an additional \$50M in grant funding for a total of \$90M. This additional funding has enabled the City to extend the Hickory Trail to a total length of 10 miles, connecting different parts of the community with destinations and amenities.
