February 20, 2018

To Whom It May Concern:

The City of Hickory is making all reasonable efforts to comply with the requirements of the Americans with Disabilities Act (ADA) along all pedestrian facilities within City Right-of-way (curb ramps / sidewalks) and at all pedestrian signals. The City of Hickory continually replaces and upgrades handicap curb ramps at intersections as sidewalks are being replaced or repaired. These projects occur when new sidewalks are constructed per the City of Hickory's Sidewalk Master Plan. Upgrades also occur when sidewalks are repaired for items such as concrete damage and trip hazards. Curb ramp upgrades occur when new ramps are installed and when pedestrian signal heads are installed for the first time at signalized intersections.

All new handicap ramps and pedestrian signal head installed are constructed to the latest ADA compliance standards including truncated domes and proper slope.

If there are any questions about this please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Caroline M. Kone".

Caroline M. Kone, PE
