Sec. 13-15. - Non-curbside collection from residential locations.

Residential customers of the city solid waste services who suffer physical conditions which would cause it to be an extreme hardship may obtain back or side-yard pickup of refuse containers. In order to receive such services, the following criteria must be met:

- (1)

A written application for the service must be submitted to the city, along with a statement by the applicant's physician explaining in sufficient detail the reason or reasons that requiring causing the applicant to deposit their garbage or refuse curbside will impose an extreme hardship.
- (2)

After the application has been accepted and non-curbside service approved, the applicant must verify annually, between May 31 and June 30 of each calendar year, that there has been no change of circumstances which make them ineligible to continue to participate in the program.
- (3)

Additional fees for non-curbside pickup of solid waste may be imposed as established annually in the fee schedule.
- (4)

The city may discontinue such service to a location upon ten days' notice to the resident for any reason. Reasons that service may be discontinued includes, but is not limited to, locked fences or gates, vicious animals, or other obstacles or barriers that make collection from a specific location inconvenient or hazardous to municipal employees.
- (5)

Collectors shall not be permitted to enter houses, gated fenced portions of the premises, enclosed porches, garages or similar enclosures to make collections.
